

Speaker Biographies
Climate Change Conference
Environmental Leadership Program
July 10-12, 2007

Azibuke Akaba

Azibuke Akaba is currently a consultant for the AB32 EJ Advisory Board. He also managed the Environmental Indicators Project (EIP). Azibuke served as the Coordinator of the National Technical Assistance Program (NTAP) for Communities for a Better Environment (CBE) from 1998 to 2003. He currently provides technical training on pollution monitoring and toxic site investigation to community groups and grassroots organizations.

Bob Allen

Bob Allen is the director of Transportation and Housing Programs at Urban Habitat. Urban Habitat works to build power in low-income communities and communities of color by combining education, advocacy, research and coalition building to advance regional environmental, economic and social justice in the Bay Area. Mr. Allen received both his B.A. in Political Science and History as well as his M.P.A. from Rutgers University.

Angela Anderson

Angela Ledford Anderson is the National Environmental Trust's Vice President for Climate Programs. Previously, she managed clean air and global warming policy as director of the Clear The Air campaign, is a nationwide coalition of legal, policy and public service organizations seeking carbon emissions reductions in the utility industry, one of the nation's largest sources of greenhouse gases.

John Anderson

John Anderson is the director of education at the New England Aquarium. John also coordinates the New England Science Center Collaborative's Meet the Scientists program, and is the co-chair of the Boston Climate Action Network. John is an ELP Senior Fellow.

Matthew Anderson-Stembridge

Matthew Anderson-Stembridge is executive director of Faith in the City, a partnership of seven major Lutheran institutions in the Minneapolis-St. Paul Metropolitan area committed to improving the quality of life of the communities in which they serve. Matthew is an ELP Fellow.

Scott Edward Anderson

Scott Edward Anderson is director of philanthropic marketing for The Nature Conservancy. Scott manages a high-level creative team that develops concepts, materials, and publications promoting the organization's global conservation work. He has served the Conservancy in fundraising management capacities since 1992, working in Pennsylvania, Alaska, and New York's Hudson Valley. He was also a member of TNC's climate change strategy team. Scott was a John C. Sawhill Conservation Leadership Fellow in 2000-2001. He also is an award-winning poet and the author of Walks in Nature's Empire, and writes a column for GreenBiz.com as well as the "Green Skeptic Weblog". Scott is an ELP Senior Fellow.

Joan Aron

Dr. Aron has wide experience in applications of research and education in public health, sustainable development, global change, ecosystem change, earth system science and mathematical modeling. She is on the associate faculty in Epidemiology at the Johns Hopkins Bloomberg School of

Public Health. She also founded and directs Science Communication Studies in Columbia, Maryland for research and education.

Ana Baptista

Ana Baptista is a doctoral candidate in the urban planning and policy development program at the E.J. Bloustein School of Planning and Public Policy at Rutgers University, where she studies environmental justice policies. Ana is an active member of New Jersey's Environmental Justice Alliance. Ana is an ELP Senior Fellow.

Eric Becker

Eric is a portfolio manager and equity analyst at Trillium Asset Management Corporation, a firm dedicated exclusively to socially and environmentally responsible investing. He is co-manager of the Green Century Balanced Fund, an environmental mutual fund. He earned his B.A. from Haverford College. Eric is a Chartered Financial Analyst. Eric is an ELP Fellow.

John Borruso

John Borruso is the Government Affairs Liaison for Fuel:Bio Holdings, LLC in charge of keeping abreast of the everchanging state-by-state Biodiesel incentive programs as well as corresponding federal programs. John holds a Masters in Government and Politics from Saint John's University where he also an adjunct professor.

Cameron Brooks

Cameron Brooks is Vice President of Supply and Development for Renewable Choice Energy, an organization that provides opportunities to help move society toward a more sustainable future, specifically by providing wind energy credits to organizations and individuals around the country. Cameron graduated magna cum laude from Yale University and holds a MBA from Cornell University. Cameron is an ELP Senior Fellow.

Kevin Bryan

Kevin is a mediator at Meridian Institute, a non-profit organization whose mission is to help people solve problems and make informed decisions about controversial and complex public policy issues. Previously, Kevin was senior coordinator for the National Wind Coordinating Committee at RESOLVE, where he identified opportunities to work with individuals and stakeholder groups on wind energy issues. Prior to RESOLVE, Kevin worked with Environmental Defense. Kevin is an ELP Senior Fellow and Board Member.

Timothy Burroughs

Timothy Burroughs is the Climate Action Coordinator at the City of Berkeley. His role is to engage the community in the design and implementation of effective greenhouse gas emissions reduction strategies. Timothy came to Berkeley from ICLEI -Local Governments for Sustainability, where he assisted municipalities throughout the U.S. to address global warming at the local level. Timothy has a Masters in international environmental policy from American University in Washington, D.C. and an undergraduate degree in philosophy from Mount Saint Mary's College in Maryland.

John Byrne

Dr. John Byrne is a Professor at the University of Delaware and Director of the Center for Energy and Environmental Policy (CEEP). He received his Ph.D. from the University of Delaware in 1980. He specializes in political economy; sustainable development; environmental justice; technology, environment and society.

Eric Carlson

Eric is a founder(with his wife Lesley) and Executive Director of Carbonfund.org. Eric has more than fifteen years experience promoting cost-effective solutions to climate change, with an extensive background in energy efficiency and renewable energy. He has also advised ministers of energy and environment, testified before Parliaments, developed a \$30 million debt-for-environment swap, and advised the World Bank and IFC on multi-million dollar project investments.

Don Chen

Don Chen is the founder and Executive Director of Smart Growth America (SGA). Don also serves on the Boards of Directors for West Harlem Environmental Action, the Institute for Location Efficiency, and the Grist Magazine and the Growth Management Leadership Alliance. He was a founding Co-Chair of the Environmental Leadership Program and now serves on its Advisory Board. Prior to SGA, he was a researcher for the Surface Transportation Policy Project, World Resources Institute, and the Rocky Mountain Institute, and has a Bachelor's Degree in Political Science from Yale University and a Master's Degree from the Yale School of Forestry & Environmental Studies.

Dale Cocca

Dale has been working directly on the development of the 136 MW Jordanville Wind Farm in Herkimer County, New York, for a year and a half as an employee of Iberdrola Renewable Energies USA. He has also been involved with agencies such as the FAA, New York Independent System Operator (grid operator), and local municipalities within the project for permitting and taxation arrangements. Dale graduated from Ithaca College with a Bachelor's degree in Communications.

Neil Cohn

Neil Cohn, Managing Director (New York), has over 15 years of experience in international commodities trading. He is currently responsible for originating emission reduction projects in China, India, Africa and Latin America and for the development of new products for the company. Mr. Cohn arranged some of the market's first GHG trades. Mr. Cohn completed his BA at Baruch College.

John Cusack

Mr. Cusack is the founder of Gifford Park Associates, a management and policy consulting firm specializing in the areas of strategic environmental/sustainability management and implementation, climate change risks, environmental finance risks and disclosure, energy, and the relationship between the environmental and financial performance of publicly traded companies. Additionally, Mr. Cusack is the executive director of the New Jersey Higher Education Partnership for Sustainability (NJHEPS). He has a MCE in Environmental Engineering & Science from Manhattan College, an MBA with concentrations in finance and management from New York University, and is a registered Professional Engineer in New York State.

Calvin Davenger, Jr.

Mr. Davenger is Deputy Director of Aviation, Planning and Environmental Stewardship at Philadelphia International Airport. Mr. Davenger received a B.S. degree in Mechanical Engineering from the Pennsylvania State University. He was licensed in 1976 as a Registered Professional Engineer in Pennsylvania, while preparing for foreign assignments lasting nearly 5 years in the Middle East and Europe.

Michael Dorsey

Dr. Michael Dorsey is a member of Dartmouth College's Faculty of Science (Hanover, NH, USA) and teaches in the Environmental Studies Program. He is a graduate of the University of Michigan School of Natural Resources and Environment; Yale University's School of Forestry and Environmental Studies and the Department of Anthropology at Johns Hopkins University. Michael is a co-founder of ELP.

David Dunn

Mr. Dunn has a BS in Animal Science from Cornell University and has worked with Central Vermont Public Service since 1992. He designed and implemented the Company's dairy farm energy efficiency program. David holds a 1998 US Patent, has published numerous articles, and has been an invited speaker at conferences across the country on farm energy efficiency and farm renewable energy. David led the team that developed the CVPS CowPower™ tariff and the CVPS Renewable Development Fund, which is focused on developing new renewable energy systems on farms in Vermont. David's work has been recognized twice with a Governors Award for Environmental Excellence in 2001 and 2006.

Dr. John Falk

Dr. Falk specializes in Free-Choice Learning and Science Education in the Science and Mathematics Department at Oregon State University. Dr. Falk has authored over one hundred scholarly articles and chapters in the areas of learning, ecology and education, more than a dozen books, as well as helped to create several nationally important out-of-school educational curricula. Dr. Falk received a joint doctorate in Ecology and Science Education from the University of California at Berkeley. He also earned MA and BA degrees in Zoology and a secondary teaching credential in biology and chemistry from the same institution.

Baruch Fischhoff

Baruch Fischhoff, Ph.D., is Howard Heinz University Professor, in the Department of Social and Decision Sciences and Department of Engineering and Public Policy at Carnegie Mellon University. A graduate of the Detroit Public Schools, he holds a B.S. in mathematics and psychology from Wayne State University and an MA and Ph.D. in psychology from the Hebrew University of Jerusalem. He is a member of the Institute of Medicine of the National Academy of Sciences, and has served on some two dozen NAS/NRC/IOM committees.

Jeanne M. Fox

Jeanne M. Fox is President of the New Jersey Board of Public Utilities (NJBPU) and serves as a member of the Governor's Cabinet. Ms. Fox served as Regional Administrator of the United States Environmental Protection Agency and Commissioner and Deputy Commissioner of the New Jersey Department of Environmental Protection and Energy. Ms. Fox received a Bachelor's Degree from Douglass College, Rutgers and a Juris Doctor from the Rutgers University School of Law.

Medard Gabel

Medard Gabel is the CEO of BigPictureSmallWorld, Inc. where he develops a wide variety of educational programs, web movies, and simulations dealing with the environment, globalization, and leadership. Medard is also the CEO of BigPicture Consulting that develops and delivers strategic planning simulations to corporations and organizations. Medard is an ELP Fellow.

Daneil Garofalo

Daniel Garofalo is the senior facilities planner at the University of Pennsylvania. Previously, Dan was an architect at several Philadelphia firms and served as a Peace Corps Volunteer in Malawi. He is founder and past chair of the Community Design Collaborative, and serves on the boards of the Delaware Valley Green Building Council and the Friends of the Free Library. Daniel is an ELP Senior Fellow.

Jacky Grimshaw

Ms. Grimshaw is the Vice President for Policy, Transportation and Community Development for the Center for Neighborhood Technology, Chicago, IL. She was former Director of the Mayor's Office of Intergovernmental Affairs; a key political advisor for the late Mayor Harold Washington; and Deputy Treasurer for Economic Development for the City Treasurer. She has also worked for the state of Illinois and the federal government. She has been a talk show host at WBEZ-FM Radio (the local NPR affiliate), a regular panelist for WLS-AM Political Talk Show, and a columnist for Crain's Chicago Business.

Carl Guardino

Carl Guardino is the President and CEO of the Silicon Valley Leadership Group, a public policy trade association that represents more than 200 of Silicon Valley's most respected companies. In February 2007, Governor Arnold Schwarzenegger appointed Guardino to a four-year term on the California Transportation Commission. He also serves on numerous other boards and is actively involved in a wide range of community organizations and projects. In 2000, the San Jose Mercury News named Guardino one of the "Five Most Powerful" people in Silicon Valley in a once-per-decade study.

Shalini Gupta

Shalini Gupta is a senior energy associate at the Izaak Walton League of America's Upper Midwest Office in St. Paul, Minnesota. . Previously, Shalini worked on developing community energy projects at the Green Institute, and has done research and policy work at Minnesotans for an Energy-Efficient Economy, Argonne National Laboratories, and the Institute for World Economics in Kiel, Germany. She serves on the Environmental Justice and Social Change Fund grant committees for the Headwaters Foundation for Justice, is on the boards of Environmental Justice Advocates of Minnesota and the Women's Environmental Institute, and is on the steering committee for a women-of-color dance collective in Minneapolis. Shalini is an ELP Fellow.

Gary Guzy

Gary is the National Practice Leader for Emerging Environmental Risk at Marsh USA. He develops new solutions for clients in responding to emerging environmental risks and trends, spearheading Marsh's efforts in the climate change arena. Gary is based in Marsh's Washington, D.C. Office and has extensive experience in the environmental field. He was appointed by the President and confirmed by the U.S. Senate to serve as the General Counsel of the U.S. Environmental Protection Agency from 1998 to 2001.

Pegeen Hanrahan

Pegeen Hanrahan is in her tenth year of elective service with the City of Gainesville, and was re-elected as Mayor in March 2007. Support for her elections has been broad and bipartisan, and has included endorsements from diverse groups such as the Sierra Club, the Human Rights Council of North Central Florida, the Gainesville Sun, the Alligator, Satellite Magazine, the Iguana, and the North Central Florida Labor Council. Pegeen has completed two terms as Chair of the Alachua County Library Governing Board. She is past chair of the Gainesville/Alachua County Metropolitan Transportation Planning Organization and the Gainesville Community Redevelopment Agency. Pegeen is an ELP Senior Fellow.

Lisa P. Jackson

As Commissioner of the New Jersey Department of Environmental Protection (DEP), Lisa P. Jackson leads a staff of 3,400 professionals dedicated to protecting, sustaining and enhancing New Jersey's water, air and land, and preserving its wealth of natural and historic resources. Before her nomination by Governor Corzine, Jackson served as the DEP's Assistant Commissioner for Land Use Management. Under her leadership, the DEP crafted regulatory standards for implementing the landmark Highlands Water Protection and Planning Act.

Laurel Kearns

Laurel is an Associate Professor of Sociology of Religion and Environmental Studies at Drew University. Her research is focused on religious involvement, particularly Christian in ecological issues and movements in the U.S. and Australia, nature spirituality, and religious responses to global warming.

Leanne Krueger-Braneky

Leanne Krueger-Braneky is executive director of the Sustainable Business Network of Greater Philadelphia, a nonprofit network that helps local, independent businesses thrive while they build an economy that values people, the planet and prosperity for all. Before joining SBN in 2004, Leanne spent a year in South Africa directing service-learning programs for the South Africa Community Fund, an organization that supports local social transformation organizations and conducts training in peace building. Leanne holds an M.B.A. in Urban Economic Development from the Campolo School for Social Change at Eastern University and a B.A. from Rutgers University. Leanne is an ELP Fellow.

Alice LeBlanc

Alice LeBlanc is Director of the Office of Environment and Climate Change in the Corporate Affairs Department of American International Group (AIG). Her responsibilities include coordinating design and implementation of AIG's corporate-wide, global climate change strategy . Ms. LeBlanc is trained as an economist and has worked for the past 15 years to promote market mechanisms as tools for environmental protection and sustainable development.

Thomas Leyden

Thomas Leyden is the Vice President of the East Coast Operations Team for PowerLight solar industries. In 1980 he founded Maryland Energy Systems, a solar thermal company in Maryland. He was president of the Maryland/Washington, D.C., Solar Energy Industry Association (SEIA) and currently serves as President of MidAtlantic SEIA, is on the boards of national SEIA, IREC and PV Now. Mr. Leyden holds a B.A. from Princeton University.

Lisa Lincoln

Lisa Lincoln is Co-Chair of the Progressive Cheverly Environmental Committee. Progressive Cheverly is a grassroots organization that believes that the promise of a fair, sane and safe world will happen only with a more informed, engaged and active citizenry. The Environmental Committee is working to promote a sustainable environment. Our committee is currently working on community education programs; Cheverly Green Home Certification Program/ Cheverly Green Home and Garden Tour; as well as town, county, and state environmental legislation.

Eugene Linden

Eugene Linden writes about science, technology, the environment and humanity's relationship with nature in books, articles, and essays. His most recent books include: Winds of Change: Climate, Weather, and the Destruction of Civilizations, published by Simon and Schuster in Feb. 2006 (and serialized in Fortune Magazine), The Octopus and the Orangutan: New Tales of Animal Intrigue, Intelligence, and Ingenuity, and The Parrot's Lament and Other True Tales of Animal Intrigue, Intelligence, and Ingenuity.

Suzanne Leta Liou

Suzanne Leta is the Global Warming and Clean Energy Advocate for Environment New Jersey, a statewide, non-profit, non-partisan, citizen-based environmental advocacy organization. Suzanne directs Environment New Jersey's energy program and is currently heading up the Global Warming Solutions and New Energy Future campaigns. Suzanne graduated from the University of Pennsylvania in 2003. She is a member of the New Jersey Board of Public Utilities' Clean Energy Council, a steering committee member for the New Jersey Sustainable State Institute and an ELP Senior Fellow.

Trina Chattoraj Mallik

Trina Chattoraj Mallik is the Corporate Engagement Manager for the North American Division of The Climate Group. Previous to working at PWC, Trina was a Senior Analyst at Innovest Strategic Value Advisors, where she was responsible for the European electric utilities, construction materials, and construction and engineering sectors. Her focus was rating companies on issues relating to climate change and renewable energy. Trina holds a B.Sc. in Mechanical Engineering, a Masters in Engineering Management, and an MBA from New York University.

Cecil D. Mark Corbin

Cecil D. Mark Corbin is Director of Programs for West Harlem Environmental Action, an environmental justice organization committed to empowering the community to become a vocal, informed and proactive force that determines and implements its vision of what its environment can and should be.

Cecilia Martinez

Cecilia is currently a Senior Policy Fellow and Adjunct Faculty member at the Center for Energy and Environmental Policy Research, at the University of Delaware. She is also an Independent Research Consultant, as well as Director of Research Programs, at the Women's Environmental Institute. She received her Ph.D. from the University of Delaware; her M.P.A from Mexico State University; and her B.S. from Stanford University.

Sabrina McCormick

Sabrina McCormick is jointly appointed in the Department of Sociology and the Environmental Science and Policy Program. She specializes in environmental sociology, medical sociology, social movements and science studies. She is also currently directing a documentary film on three women with

breast cancer entitled "No Family History". Dr. McCormick studies energy policy and the anti-dam movement in Brazil with particular attention to new participatory mechanisms the movement has developed. Sabrina is an ELP Senior Fellow.

Bruce K. Morton

Bruce Morton is the executive director of the West Atlanta Watershed Alliance where he coordinates community groups and youth to address air, water, and land management issues in west Atlanta. He is also the communications manager at the Atlanta City Council. Since 1995 he has been instrumental in preserving over 200 acres of open space for habitat, education, and recreation. Bruce is a certified League of American Cyclist, Effective Cycling Instructor, and a youth cycling mentor. He has worked with the Atlanta Bicycle Campaign and Southern Off-Road Bicycling Association. Bruce is an ELP Senior Fellow.

Susanne C. Moser

Dr. Moser is a Research Scientist at the Institute for the Study of Society and Environment (ISSE) at the National Center for Atmospheric Research in Boulder, Colorado. She is a geographer by training (Ph.D. 1997, Clark University), whose research foci for the last ten years have been the human dimensions of global change.

Michael Noble

Michael Noble is Executive Director and CEO of Fresh Energy, a role he has served in since 1995. Michael Noble has nearly thirty years of professional expertise in energy policy, with a focus on solving the national security, economic, and environmental problems associated with America's energy system. Currently, Mr. Noble serves on the steering committee of a multi-state consortium of more than forty nonprofit groups and private foundations working to reduce global warming pollution by eighty percent. He is a 1977 graduate in history from Carleton College.

Beth Norcross

After receiving a B.A. in mathematics from Duke University as well as a Master of Forestry degree, Beth enjoyed a long career in the environmental field. She worked as professional staff for the U.S. Senate National Parks and Forests subcommittee, as well as Vice-President for Conservation for American Rivers. In 2005, she completed a Master of Theological Studies degree from Wesley Seminary in Washington, D.C., with a concentration in eco-theology. Since graduating, she has developed a consulting ministry in eco-theology and has been involved with a number of projects for the National Council of Churches, American Rivers and Earth Ministry. Beth speaks and preaches on the Scriptural and ecological imperatives to protect the earth and has led several workshops and retreats on nature and spirituality. She has developed adult education curriculum on "Sacred Waters" and a creation-friendly building guide – "Building a Firm Foundation" for the National Council of Churches. She is on the steering committee for the Green Seminary Initiative and Greater Washington Interfaith Power and Light. She teaches in an adjunct capacity at Wesley Seminary on "The Church and the Ecological Crisis."

Tim Nuse

Tim Nuse is on the Utility Management team at Starbucks Coffee Company. His work includes measuring and reporting the use of electricity, water, and natural gas in all US and Canadian stores, promoting conservation methods in facilities and store design, and promoting climate strategies for the company. In his four years with Starbucks, Tim has co-founded a network of employees for sustainable lifestyles, aided the development of the annual Corporate Social Responsibility report, and participated in the company's first greenhouse gas inventory. Mr. Nuse holds a Bachelor of Arts degree in Environmental Studies from Pacific Lutheran University and has a certificate in Permaculture Design.

Mark Orłowski

Mark Orłowski is founder and executive director of the Sustainable Endowments Institute. Mark has spoken at more than 60 colleges in 28 states and has worked with students, faculty, administrators, and trustees at dozens of schools. A graduate of Williams College, Mark chaired the Campus Environmental Advisory Committee and served on the Advisory Committee on Shareholder Responsibility at the college. Mark is an ELP Fellow.

Jacob Park

Jacob Park is assistant professor of business strategy and sustainability at Green Mountain College in Vermont specializing in the teaching and research of global environment & business strategy, corporate social responsibility, and community-based entrepreneurship & social innovation with a special expertise/ interest in Japan, China, and the Asia-Pacific region. He is a former lead author in the Scenarios Working Group of the Millennium Ecosystem Assessment. He is also a an ethical research consultant with Green Cay Asset Management, and a senior research consultant and a Japanese and Asian equity specialist in the Governance and Socially Responsibility Investment Group of ISIS Asset Management. Jacob is an ELP Senior Fellow.

Cindy Parker

Dr. Parker is on the faculty at the Johns Hopkins Bloomberg School of Public Health, Dept. of Environmental Health Sciences where she co-directs the graduate course The Global Environment and Public Health. She is also on the faculty of the Johns Hopkins Center for Public Health Preparedness. Dr. Parker received her MD from the University of Arizona and her Masters in Public Health from Johns Hopkins Bloomberg School of Public Health. She is board certified in Public Health and General Preventive Medicine.

Wendy Pollock

Wendy Pollock works for the Association of Science-Technology Centers (ASTC), an international organization of science centers and museums with members in 40+ countries. Her job includes working with professional development online and off and working with exhibition and information services.

Jenny Sayre Ramberg

Jenny Sayre Ramberg is a senior exhibit developer and writer at Monterey Bay Aquarium. One of her most recent projects is ActNow – Time’s Running Out, an exhibit designed to inspire visitors to participate in a campaign to establish Marine Protected Areas. Jenny describes herself as “a bit obsessed with the idea of offering visitors meaningful ways to take action on behalf of what they care about – the ocean, the land, social justice, global warming and family. She is also a board member at large at the National Association for Museum Exhibition.

Michelle Robinson

Michelle Robinson is owner of Michelle Robinson Architects and is recognized for her ability to infuse transit related projects with ideas consistent with sustainability and the long term vision for self-reliance. She is a 2003 Knight Fellow through the University of Miami School of Architecture and serves on the board of UC Green, co-chairs the Projects Committee for the Community Design Collaborative, and volunteers with the PSU Fast Start program. Michelle is an ELP Senior Fellow.

Nia Robinson

Nia Robinson works as Director of the Environmental Justice and Climate Change Initiative at Redefining Progress, an organization that works with a broad array of partners to shift the economy and public policy toward sustainability.

Nicky Sheats

Dr. Nicky Sheats is currently director of the Center for the Urban Environment (CUE) of the John S. Watson Institute for Public Policy of Thomas Edison State College, an organization that provides support for New Jersey’s environmental justice community. He has also been a member of New Jersey’s only statewide environmental organization that focuses solely on environmental justice issues, the New Jersey Environmental Justice Alliance, since its inception in 2002. Prior to studying science Dr. Sheats was a public interest attorney for over seven years.

Matthew Sleeth

J. Matthew Sleeth, MD, a former emergency room director and chief of medical staff, now writes, preaches, and teaches full-time about faith and the environment. In 2006, he wrote Serve God Save the Planet, published by Chelsea Green Publishing.

Mark van Soestbergen

Mark van Soestbergen is the President of the International Carbon Bank and Exchange and the Coordinator of the Climate Neutrality Working Group of the University of Florida. He first became interested in carbon sequestration in 1990 while developing an emissions reduction scheme for Shin-Idemitsu, a Japanese oil distributor. Mark is a frequent guest lecturer on climate change adaptation strategies and most recently he was co-chair of EPA's 16th Annual International Emissions Inventory Conference.

Donnan Steele

*Donnan Steele is a project manager with McKinsey & Company in Houston, TX. Previously, he received a Ph.D in atmospheric chemistry and a certificate in finance from M.I.T., where he was affiliated with the M.I.T. Joint Program for the Science and Policy of Global Change. He has been on the boards of several environmental non-profits and has consulted for **political campaigns and **non-profits, including Ozone Action, Greenpeace, and the Institute for Civil Society. He was co-founder and Vice President of Student.net Publishing, an early venture-backed Internet company. Donnan is an ELP Senior Fellow.*

Jessica Strauss

Jessica Strauss is the Senior Sustainability Consultant for ARUP. She also has experience in evaluating building systems including environmental considerations, circulation patterns, and spatial programming. Jessica has led the sustainability assessments for the Fulton Street Transit Center, the Massena and Champlain border crossings and the Middlebury College Master Plan. Jessica is an ELP Senior Fellow.

Kristin Sullivan

Kristin Sullivan is in charge of special projects at Community Energy, Inc. where she supports and coordinates small renewable energy projects involving solar and wind. Previously, Kristin was an energy and emissions analyst for over three years with PWI Energy in Philadelphia. Her work as a natural resources volunteer in Peace Corps, Honduras, gave Kristin a firm foundation to help stimulate a sustainable future. Kristin is an ELP Senior Fellow.

Josh Tulkin

A self described "professional rabble-rouser," Josh brings his ethic of stirring up the system to his work as Organizing Director for Chesapeake Climate Action Network (CCAN). In this role, Josh coordinates campaigns to promote solutions to global warming across the region, from state legislatures to college campus. Recent victories include the Healthy Air Act, the Maryland Clean Cars Bill, and numerous clean energy policies at colleges across the region.

W. Warner Wood

W. Warner "Bill" Wood is Assistant Professor of Anthropology and Museum Studies, Central Washington University, and Research Associate, Natural History Museum of Los Angeles County. His most recent work is focused on the transnational lives of Zapotec weavers and textiles as well as eco-tourism and the management of biodiversity on the Pacific Coast of Oaxaca. Bill is an ELP Senior Fellow.

Donald Wuebbles

Donald J. Wuebbles is Head of the Department of Atmospheric Sciences at the University of Illinois and Professor in that department as well as in the Department of Electrical and Computer Engineering. He was also the first Director of the Environmental Council at the University of Illinois, from 1996 until August 1999. Dr. Wuebbles earned his B.S. (1970) and M.S. (1972) degrees in Electrical Engineering from the University of Illinois. He received his Ph.D. in Atmospheric Sciences from the University of California at Davis in 1983.

Shelley Zimmer

Shelley Zimmer is the senior manager of Footwear Sustainability at Nike. Her projects include improving Nike's footwear packaging, gathering consumer insights related to sustainability, and

prospecting future opportunities for sustainability initiatives at Nike. Previously, Shelley worked at Hewlett-Packard Corporation and at NatureMark Potatoes in marketing and environmental marketing roles. Shelley currently serves on the Steering Committee for the Portland professional chapter of Net Impact, a network of emerging business leaders committed to using the power of business to create a better world. Shelley is an ELP Senior Fellow.
